

# INDEX TO THE JOURNAL OF THE SOUTH AFRICAN INSTITUTION OF CIVIL ENGINEERING 2014 (Volume 56)

<u>Title</u>	<u>Author(s)</u>	<u>Journal/Page Numbers</u>
--------------	------------------	-----------------------------

## ARTICLES

- |   |  |                       |
|---|--|-----------------------|
| <p>Impact of the Gautrain on property development around station precincts</p> <p><b>Keywords:</b> <i>transit-oriented development; property development; land use planning; transportation planning</i></p>  | <p>R Mushongahande, C E Cloete,<br/>C J Venter</p> | <p>No 1, pp 2–10</p>  |
| <p>Factors predicting the intention to accept treated wastewater reuse for non-potable uses amongst domestic and non-domestic respondents</p> <p><b>Keywords:</b> <i>predicting intention; wastewater reuse, SEM</i></p>  | <p>J R Adewumi, A A Ilemobade,<br/>J E van Zyl</p> | <p>No 1, pp 11–19</p> |
| <p>The management of constructability knowledge in the building industry through lessons learnt programmes</p> <p><b>Keywords:</b> <i>constructability; knowledge management; lesson learnt programme; structural design; consultant/contractor collaboration</i></p>                                     | <p>V Kuo, J A Wium</p>                             | <p>No 1, pp 20–27</p> |
| <p>Evaluation of the strength behaviour of unpaved road material treated with electrochemical-based non-traditional soil-stabilisation additives</p> <p><b>Keywords:</b> <i>Unpaved road material; electrochemical stabilisation; bonding; dry density and moisture content; strength development</i></p> | <p>R J Moloisane, A T Visser</p>                   | <p>No 1, pp 28–39</p> |
| <p>The status of basic design ground motion provisions in seismic design codes of sub-Saharan African countries: A critical review</p> <p><b>Keywords:</b> <i>seismicity; seismic design; seismic hazard; return period; site effect; design spectra; sub-Saharan Africa</i></p>                          | <p>A Worku</p>                                     | <p>No 1, pp 40–53</p> |

<u>Title</u>	<u>Author(s)</u>	<u>Journal/Page Numbers</u>
<p>Soil-structure-interaction provisions: A potential tool to consider for economical seismic design of buildings?</p> <p><b>Keywords:</b> <i>soil-structure interaction; fixed-base structure; flexible-base structure; period lengthening; effective damping; base shear; site amplification</i></p>	A Worku	No 1, pp 54–62
<p>Proposed guideline for modelling water demand by suburb</p> <p><b>Keywords:</b> <i>water demand; domestic use; regression analysis; suburb; AADD; design standards</i></p>	M L Griffioen, J E van Zyl	No 1, pp 63–68
<p>Accounting for moment-rotation behaviour of connections in portal frames</p> <p><b>Keywords:</b> <i>portal frames; FEA; moment-rotation; rotational spring stiffness</i></p>	H L Albertyn, T N Haas, P E Dunaiski	No 1, pp 69-76
<p>The application and interpretation of linear finite element analysis results in the design and detailing of hogging moment regions in reinforced concrete flat plates</p> <p><b>Keywords:</b> <i>RC column footing; finite elements; singularities; peak moments</i></p>	S A Skorpen, N W Dekker	No 1, pp 77–92
<p>Towards a systems thinking approach in allocating infrastructure budgets in local government</p> <p><b>Keywords:</b> <i>government; infrastructure; budget; system thinking; legislation</i></p>	G N Kaiser, J J Smallwood	No 1, pp 93–99
<p>Analysing delay and queue length using microscopic simulation for the unconventional intersection design Superstreet</p> <p><b>Keywords:</b> <i>superstreet; unconventional intersection design; microscopic simulation; CORSIM</i></p>	H H Naghawi, W I A Idewu	No 1, pp 100–107
<p>A CPM-based scheduling method for construction projects with fuzzy sets and fuzzy operations</p> <p><b>Keywords:</b> <i>construction management; critical path method; scheduling; fuzzy sets; uncertainty</i></p>	Ö Ökmen, A Öztaş	No 2, pp 2–8

<u>Title</u>	<u>Author(s)</u>	<u>Journal/Page Numbers</u>
<p>Uncertainty evaluation with fuzzy schedule risk analysis model in activity networks of construction projects</p> <p><b>Keywords:</b> <i>construction management; scheduling; fuzzy sets; simulation modelling; risk analysis</i></p>	Ö Ökmen, A Öztaş	No 2, pp 9–20
<p>Effect of corrosion products on bond strength and flexural behaviour of reinforced concrete slabs</p> <p><b>Keywords:</b> <i>corrosion level; bond strength; reinforced concrete; flexural behaviour</i></p>	E P Kearsley, A Joyce	No 2, pp 21–29
<p>Evaluation of rock types for concrete aggregate suitability for the construction of a gravimeter vault and access road at the Matjiesfontein Geodesy Observatory site near Matjiesfontein, South Africa</p> <p><b>Keywords:</b> <i>Matjiesfontein; concrete; durability; gravimeter; vault</i></p>	P R van Wyk, L Croucamp	No 2, pp 30–36
<p>Resistance model uncertainty factors for ultimate limit state design of pile foundations</p> <p><b>Keywords:</b> <i>ultimate limit state; pile foundation design; pile load tests; model factor; static formula</i></p>	M Dithinde, J V Retief	No 2, pp 37–45
<p>Buckling of short cold-formed lipped channels in compression</p> <p><b>Keywords:</b> <i>cold-formed lipped channels; short columns; compressive resistance; local buckling; distortional buckling</i></p>	M Dundu	No 2, pp 46–53
<p>The issue of personal safety on dolomite: A probability-based evaluation with respect to two- and three-storey residential units</p> <p><b>Keywords:</b> <i>dolomite; sinkhole; risk; hazard; coincidence; probability; multiple housing</i></p>	H A D Kirsten, G J Heath, I S Venter, A C Oosthuizen	No 2, pp 54–64
<p>The issue of personal safety on dolomite: A probability-based evaluation with respect to transient passage in a city centre</p>	H A D Kirsten, G J Heath, I S Venter, A C Oosthuizen	No 2, pp 65–77

<u>Title</u>	<u>Author(s)</u>	<u>Journal/Page Numbers</u>
<p><b>Keywords:</b> <i>sinkhole; coincidence; personal safety; risk; hazard; probability; city centre; transient passage</i></p>		
<p>The issue of personal safety on dolomite: Update of a probability-based evaluation with respect to single-storey residential houses</p>	<p>H A D Kirsten, G J Heath, I S Venter, A C Oosthuizen</p>	<p>No 2, pp 78–87</p>
<p><b>Keywords:</b> <i>dolomite; sinkhole; risk; hazard; coincidence; probability; single houses</i></p>		
<p>The diversification strategies of large South African contractors into southern Africa</p>	<p>J Olivier, D Root</p>	<p>No 2, pp 88–96</p>
<p><b>Keywords:</b> <i>diversification; South African construction industry; southern Africa; strategy; large South African contractors</i></p>		
<p>Mechanical properties of self-compacting concrete with binary and ternary cementitious blends of metakaolin and fly ash</p>	<p>V Kannan, K Ganesan</p>	<p>No 2, pp 97–105</p>
<p><b>Keywords:</b> <i>self-compacting concrete; fresh properties; strength; UPV; dynamic modulus of elasticity</i></p>		
<p>Conduit-hydropower potential in the City of Tshwane water distribution system: A discussion of potential applications, financial and other benefits</p>	<p>L Loots, M van Dijk, S J van Vuuren, J N Bhagwan, A Kurtz</p>	<p>No 3, 2–13</p>
<p><b>Keywords:</b> <i>conduit-hydropower; decision support system; water distribution systems; renewable energy; life cycle costing</i></p>		
<p>Evaluating the prioritisation of South African dams for rehabilitation with special focus on risk to human lives</p>	<p>S Reynolds, C Barnardo-Viljoen</p>	<p>No 3, pp 14–24</p>
<p><b>Keywords:</b> <i>dams; risk acceptability; life safety; SWTP; optimisation</i></p>		
<p>Effects of safety factors on the deflections in a concrete gravity dam</p>	<p>M Opan</p>	<p>No 3, pp 25–29</p>
<p><b>Keywords:</b> <i>concrete gravity dam; pseudo analysis; deflections; safety factors</i></p>		

<u>Title</u>	<u>Author(s)</u>	<u>Journal/Page Numbers</u>
Soil collapse from an effective stress perspective  <b>Keywords:</b> <i>creep, Collapse Potential Test; double oedometer test; effective stress; matric suction; soil collapse; unsaturated soil; vertical strain</i>	G Brink, G Heymann	No 3, pp 30–33
Parametric study on the behaviour of Y-shaped composite bridges  <b>Keywords:</b> <i>composite bridge; box girder, ramp; interaction; finite element method; experimental modal analysis</i>	P Lu, C Shao	No 3, pp 34–43
Effect of activator dosage, water-to-binder-solids ratio, temperature and duration of elevated temperature curing on the compressive strength of alkali-activated fly ash cement pastes  <b>Keywords:</b> <i>fly ash; sodium hydroxide; alkali-activated cement; temperature; compressive strength</i>	J Shekhovtsova, E P Kearsley, M Kovtun	No 3, pp 44–52
Directional wave spectra on the east coast of South Africa  <b>Keywords:</b> <i>waves; directional spectra; seasonality; coastal vulnerability</i>	S Corbella, D D Stretch	No 3, pp 53–64
Review of pump suction reducer selection: Eccentric or concentric reducers  <b>Keywords:</b> <i>pump station design; eccentric and concentric reducers; computational fluid dynamics (CFD); numerical modelling; air transport in pipelines</i>	R M Mahaffey, S J van Vuuren	No 3, pp 65–76
Dynamic behaviour of underspanned suspension road bridges under traffic loads  <b>Keywords:</b> <i>underspanned suspension bridges; road roughness; vehicle-bridge dynamic interaction; deck vibrations; penalty method</i>	J Oliva, J M Goicolea, P Antolín, M Astiz	No 3, pp 77–87

**DISCUSSION**

Cradle-to-gate environmental impacts of the concrete industry in South Africa

R Muigai, M G Alexander, P Moyo – 55 (2) 2013, pp 2–7

No 1, pp 108

**Comment:** Dr F Netterberg

**Response:** R Muigai, Dr M Alexander, Prof P Moyo

Structurally efficient housing incorporating natural forms

M Gohnert, A Fitchett, I Bulovic, N Bhikhoo – 55(3) 2013, pp 96–102

No 1, pp 109

**Comment:** Dr T van Robbroeck
