

# INDEX TO THE JOURNAL OF THE SOUTH AFRICAN INSTITUTION OF CIVIL ENGINEERING 2011 (Volume 53)

<u>Title</u>	<u>Author(s)</u>	<u>Magazine/Page Numbers</u>
--------------	------------------	------------------------------

## ARTICLES

- |   |   |                       |
|---|---|-----------------------|
| <p>Application, advantages and limitations of high-density gravimetric surveys compared with three-dimensional geological modelling in dolomite stability investigations</p> <p><b>Keywords:</b> <i>dolomite; gravimetric survey; rotary percussion drilling; three-dimensional geological modelling; karst</i></p> | <p>I J Breytenbach, P J A Bosch</p>         | <p>No 2, pp 7–13</p>  |
| <p>Behaviour of steel tubular stub and slender columns filled with concrete using recycled aggregates</p> <p><b>Keywords:</b> <i>composite column; recycled aggregate concrete; steel tubular sections; stub column; slender column</i></p>   | <p>E K Mohanraj, S Kandasamy, R Malathy</p> | <p>No 2, pp 31-38</p> |
| <p>Bulk water distribution power supply failures</p> <p><b>Keywords:</b> <i>bulk water supply; pump stations; power supply; failure probability; reliability</i></p>  | <p>D T Nel, J Haarhoff</p>                  | <p>No 1, pp 55-60</p> |
| <p>Clients' perspectives of professional ethics for civil engineers</p> <p><b>Keywords:</b> <i>professional ethics; code of ethics; clients' perceptions; disciplinary procedures; unethical conduct</i></p>  | <p>H Abdul-Rahman, C Wang, M A Saimon</p>   | <p>No 2, pp 2-6</p>   |
| <p>Climate change and urban road transport – a South African case study of vulnerability due to sea level rise</p> <p><b>Keywords:</b> <i>road vulnerability; network analysis; transportation planning; climate change</i></p>   | <p>E Friedrich, S Timol</p>                 | <p>No 2, pp 14-22</p> |
| <p>Correlating Standard Penetration Test and Dynamic Probe Super Heavy penetration</p>  | <p>C MacRobert, D Kalumba, P Beales</p>     | <p>No 1, pp 46-54</p> |

<u>Title</u>	<u>Author(s)</u>	<u>Magazine/Page Numbers</u>
<p>resistance values in sandy soils</p> <p><b>Keywords:</b> <i>Standard Penetration Test (SPT); Dynamic Probe Super Heavy (DPSH); Empirical Equivalence; Geotechnical Site Investigations; Dynamic Penetration Testing</i></p>		
<p>Effectiveness of the fineness of two South African Portland cements for controlling early-age temperature development in concrete</p> <p><b>Keywords:</b> <i>cement; fineness; calorimetry; concrete temperature; modelling</i></p>	P C Graham, Y Ballim, J B Kazirukanyo	No 1, pp 39-45
<p>Positioning technology development in the South African construction industry: a technology foresight study</p> <p><b>Keywords:</b> <i>technology foresight; construction sector; construction drivers; research and development</i></p>	F C Rust, R Koen	No 1, pp 2-8
<p>Reducing crime in South Africa by enforcing traffic laws – a 'broken windscreen' approach</p> <p><b>Keywords:</b> <i>broken windows; traffic law enforcement; Safe Streets 1997; reducing crime; broken windscreen</i></p>	P C Bezuidenhout	No 1, pp 33-38
<p>Response of a full-scale dry-stack masonry structure subject to experimentally applied earthquake loading</p> <p><b>Keywords:</b> <i>earthquake testing; full-scale testing; brick structure; brick friction; energy dissipation</i></p>	A Elvin, H C Uzoegbo	No 1, pp 22-32
<p>The failure probability of welded steel pipelines in dolomitic areas</p> <p><b>Keywords:</b> <i>dolomitic; sinkholes; pipeline; failure; probability</i></p>	D T Nel, J Haarhoff	No 1, pp 9-21
<p>Validation of international concrete creep prediction models by application to South African concretes</p> <p><b>Keywords:</b> <i>concrete; creep; models; design codes; testing</i></p>	G C Fanourakis	No 2, pp 23-30

**DISCUSSION**

Spherical void formers in concrete slabs

C C Marais, J M Robberts, B W  
J van Rensburg – 52 (2) 2010,  
pp 2-11  
Comment: Dr Roderick  
Rankine

No 1, pp 61-62

**ERRATA**

Spherical void formers in concrete slabs

C C Marais, J M Robberts, B W  
J van Rensburg – 52 (2) 2010,  
Figure 11, p 10

No 1, pp 61-62
