

INDEX TO THE JOURNAL OF THE SOUTH AFRICAN INSTITUTION OF CIVIL ENGINEERING 2013 (Volume 55)

<u>Title</u>	<u>Author(s)</u>	<u>Journal/Page Numbers</u>
--------------	------------------	-----------------------------

ARTICLES

- | | | |
|---|---|-----------------------|
| <p>Estimating car ownership and transport energy consumption: a disaggregate study in Nelson Mandela Bay</p> <p>Keywords: <i>travel behaviour; energy consumption; land use; vehicle ownership model; travel demand management</i></p> | <p>C J Venter, S O Mohammed</p> | <p>No 1, pp 2–10</p> |
| <p>Experimental and numerical investigation of the natural frequencies of the composite profiled steel sheet dry board (PSSDB) system</p> <p>Keywords: <i>natural frequency; profiled steel sheet dry board; frequency response function; low and high frequency floors; human comfort</i></p> | <p>F A Gamdomkar, W H Wan Badaruzzaman, S A Osman, A Ismail</p> | <p>No 1, pp 11–21</p> |
| <p>Improving water quality in stormwater and river systems: an approach for determining resources</p> <p>Keywords: <i>City of Cape Town; stormwater; pollution; methodology; resources</i></p> | <p>M Nel, A Parker, P Silbernagl</p> | <p>No 1, pp 22–35</p> |
| <p>Design implications on capital and annual costs of smallholder irrigator projects</p> <p>Keywords: <i>appropriate irrigation design; smallholder irrigators; smallholder water supply; smallholder production costs</i></p> | <p>A F Hards, J A du Plessis</p> | <p>No 1, pp 36–44</p> |
| <p>A model for the drying shrinkage of South African concretes</p> <p>Keywords: <i>concrete; shrinkage; model prediction; dataset</i></p> | <p>P C Gaylard, Y Ballim, L P Fatti</p> | <p>No 1, pp 45–59</p> |
| <p>Pile design practice in southern Africa, Part 1: Resistance statistics</p> | <p>M Dithinde, J V Retief</p> | <p>No 1, pp 60–71</p> |

<u>Title</u>	<u>Author(s)</u>	<u>Journal/Page Numbers</u>
<p>Keywords: <i>pile foundations design; southern African practice; pile load tests; model factor; statistical characterisation</i></p>		
Pile design practice in southern Africa, Part 2: Implicit reliability of existing practice	J V Retief, M Dithinde	No 1, pp 72–79
<p>Keywords: <i>pile foundations; South African practice; geotechnical design; reliability level</i></p>		
Optimising dosage of Lytag used as coarse aggregate in lightweight aggregate concretes	S Ahmad, Y S Sallam, I A R Al-Hashmi	No 1, pp 80–84
<p>Keywords: <i>Lytag, lightweight aggregate concrete; dosage, mixtures; optimisation</i></p>		
Centrifuge modelling of a soil nail retaining wall	S W Jacobsz	No 1, pp 85–93
<p>Keywords: <i>soil nail; centrifuge model; strength mobilisation; sand; residual andesite</i></p>		
2D Linear Galerkin finite volume analysis of thermal stresses during sequential layer settings of mass concrete considering contact interface and variations of material properties, Part 1: Thermal analysis	S Sabbagh-Yazdi, T Amiri-SaadatAbadi, F M Wegian	No 1, pp 94–103
<p>Keywords: <i>variable thermal property; mass concrete; Galerkin finite volume solution; unstructured meshes of triangular elements</i></p>		
2D Linear Galerkin finite volume analysis of thermal stresses during sequential layer settings of mass concrete considering contact interface and variations of material properties, Part 2: Stress analysis	S Sabbagh-Yazdi, T Amiri-SaadatAbadi, F M Wegian	No 1, pp 104–113
<p>Keywords: <i>variable mechanical property; mass concrete; Galerkin finite volume solution; unstructured meshes of triangular elements</i></p>		
Cradle-to-gate environmental impacts of the concrete industry in South Africa	R Muigai, M G Alexander, P Moyo	No 2, pp 2–7
<p>Keywords: <i>environmental burden; CO²-e emissions; concrete industry; South Africa</i></p>		

<u>Title</u>	<u>Author(s)</u>	<u>Journal/Page Numbers</u>
Relationship between creep time dependent index and Paris Law parameters for bituminous mixtures Keywords: <i>cracking; bottom ash; visco-elasticity; SCB; Paris Law; creep</i>	M Mostafa Hassan	No 2, pp 8–11
A procedure for critical path method-based scheduling in linear construction projects Keywords: <i>construction management; critical path method; scheduling; network analysis; linear scheduling</i>	Ö Ökmen	No 2, pp 12–20
Management concepts and project performance: perceptions from the South African public sector environment Keywords: <i>construction; infrastructure; project performance; South Africa</i>	F A Emuze, J J Smallwood	No 2, pp 21–28
Strong winds in South Africa, Part 1: Application of estimation methods Keywords: <i>strong wind climate; South Africa; extreme-value distributions; wind statistics</i>	A C Kruger, J V Retief, A M Goliger	No 2, pp 29–45
Strong winds in South Africa, Part 2: Mapping of updated statistics Keywords: <i>strong wind climate; wind statistics; wind maps; design wind speed; South Africa</i>	A C Kruger, J V Retief, A M Goliger	No 2, pp 46–58
Experimental study of turbulence and water levels in shoaling and breaking waves using digital image processing techniques Keywords: <i>breaking waves, wave height; still water line; digital correlation image velocimetry (DCIV); cross correlation; velocity flow fields; turbulence intensities; turbulent kinetic energy; vorticity</i>	R Mukaro, K Govender	No 2, pp 59–74
Modelling of the fracture process zone to improve the crack propagation criterion in concrete Keywords: <i>cohesive, crack, energy; model; stiffness</i>	S Shahbazpanahi, A A A Ali, F N Aznieta; A Kamkar; N Farzadnia	No 3, pp 2–9

<u>Title</u>	<u>Author(s)</u>	<u>Journal/Page Numbers</u>
Friction behaviour of fresh concrete in the vicinity of formwork Keywords: <i>rheology; tribology; concrete formwork; friction stress; concrete formulation</i>	S Bouharoun	No 3, pp 10–17
The integration of railway asset management information to ensure maintenance effectiveness Keywords: <i>information integration; asset management; maintenance; continuous improvement; condition-based; condition performance</i>	N J van der Westhuizen, P J Gräbe	No 3, pp 18–29
Laser-based assessment of road aggregate particle shape and texture properties with the aim of deriving comparative models Keywords: <i>road aggregate; particle shape; particle texture; laser scanner; particle model</i>	I J Breytenbach, J K Anochie-Boateng, P Paige-Green, J L van Rooy	No 3, pp 30–35
Incorporating rainfall uncertainty into catchment modelling Keywords: <i>rainfall uncertainties; catchment modelling; multipliers; calibration</i>	J G Ndiritu	No 3, 36–46
Rocking shear wall foundations in regions of moderate seismicity Keywords: <i>rocking foundations; moderate seismicity; structural frame; time-history</i>	J E van der Merwe, J A Wium	No 3, pp 47–56
A field study of the in situ moisture regime during active hydraulic tailings deposition Keywords: <i>tailings; reference evapotranspiration; moisture loss; field capacity; strength gain</i>	C J MacRobert, G E Blight	No 3, pp 57–68
The use of ground-penetrating radar to develop a track substructure characterisation model Keywords: <i>track substructure; characterisation; ground-penetrating radar; ballast fouling; earthworks</i>	D J Vorster, P J Gräbe	No 3, pp 69–78
Causes of delay in road construction	M J Kamanga; W J v d M Steyn	No 3, pp 79–85

<u>Title</u>	<u>Author(s)</u>	<u>Journal/Page Numbers</u>
<p>projects in Malawi</p> <p>Keywords: <i>road construction delay; Relative Importance Index; delay causes; fuel shortage; inadequate cash-flow</i></p>		
<p>Critical normal traffic loading for flexure of skew bridges according to TMH7</p> <p>Keywords: <i>bridge traffic loading; skew bridges; TMH7; software development; finite element analysis</i></p>	A D Malan, G C van Rooyen	No 3, pp 86–95
<p>Structurally efficient housing incorporating natural forms</p> <p>Keywords: <i>shells; vaults; catenary; earth bricks; low-cost housing; masonry</i></p>	M Gohnert, A Fitchett, I Bulovic, N Bhikhoo	No 3, pp 96–102
<p>Exploring the flow number (FN) index as a means to characterise the HMA permanent deformation response under FN testing</p> <p>Keywords: <i>hot-mix asphalt (HMA); rutting; permanent deformation (PD); flow number (FN); FN test; FN index; Hamburg wheel tracking test</i></p>	L F Walubita, J Zhang, A E Alvarez, X Hu	No 3, pp 103–112

DISCUSSION

<p>Weak interlayers in flexible and semi-flexible road pavements: Part 1</p>	<p>F Netterberg, M de Beer – 54 (1) 2012, pp 32–42</p> <p>Comment: Dr C J Semmelink</p> <p>Response: Dr F Netterberg and Dr M de Beer</p>	No 1, pp 114–116
<p>The effects of placement conditions on the quality of concrete in large-diameter bored piles</p>	<p>G C Fanourakis, P W Day, G R H Grieve – 54 (2) 2012, pp 86–93</p> <p>Comment: Prof M G Alexander</p>	No 1, pp 116
