

**INDEX TO THE JOURNAL OF THE SOUTH AFRICAN INSTITUTION OF
CIVIL ENGINEERING 2006 (Vol 48)**

TITLE (Alphabetical)	Author(s)	Magazine/Page Numbers
<i>A review of the classical method of design of medium height gravity dams and aspects of base shortening with uplift</i>	C F Watermeyer	3/2
<i>An assessment of the accuracy of nine design models for predicting creep in concrete</i>	G C Fanourakis and Y Ballim	4/2
<i>Assessing the repeatability and reproducibility values of South African durability index tests</i>	K Stanish (Visitor), M G Alexander and Y Ballim	2/10
<i>Developing understanding of structural implications of dynamic loading in engineering students through the egg drop contest – theory and measurements</i>	A A Elvin and N G Elvin	3/17
<i>Discussion: An investigation into the mediation of disputes in the South African construction industry</i>		1/14
<i>Discussion: An investigation into the mediation of disputes in the South African construction industry</i>		3/23
<i>Discussion: The lateral torsional buckling strength of hot-rolled 3CR12 beams</i>		3/24
<i>Effect of stand size and income on residential water demand</i>	M L Husselmann and J E van Zyl	3/12
<i>Effective stiffness of nailed multiple-ply timber members</i>	Walter Burdzik	4/14

TITLE (Alphabetical)	Author(s)	Magazine/Page Numbers
<i>Geotechnical engineers and the Construction Regulations</i>	Peter Day	4/21
<i>Laboratory assessment of the influence of the proportion of waste foundry sand on the geotechnical engineering properties of clayey soils</i>	M B Mgangira	1/2
<i>Postulates on shear in reinforced concrete</i>	M Gohnert	4/9
<i>Solid waste management strategy in Botswana: The reduction of construction waste</i>	K Stanish (Visitor), M G Alexander and Y Ballim	2/18
<i>The lateral torsional buckling strength of hot-rolled 3CR12 beams</i>	J Klopper and R F Laubscher	1/8
<i>Using an operating cost model to analyse the selection of aircraft type on short-haul routes</i>	B Ssamula, R Del Mistro and A T Visser	2/2
