INDEX TO THE JOURNAL OF THE SA INSTITUTION OF CIVIL ENGINEERING 2003 / BLADWYSER: JOERNAAL VAN DIE SA INSTITUUT VAN SIVIELE INGENIEURSWESE 2003

TITLE/TITEL	**NO AND PAGE / NO EN BLADSY**
Appropriate approach in measuring waste generation, composition and density in developing areas – C Mbande	3/2
Concrete mixes for durable marine structures – M G Alexander and J R Mackechnie	2/20
Discussion: The effect of fly ash properties on concrete strength by E P Kearsley and P J Wainwright in Journal 45(1)	4/18
Discussion: Joint type and the stability behaviour of steel frame beams by A Masarira in Journal 44(4)	1/31
Discussion: The achievement of uniformity of straining during concrete cube testing in South Africa by I Luker in Journal 45(1)	3/23
Effect of ductility on load-carrying capacity of steel fibre reinforced concrete ground slabs – E P Kearsley and W Elsaigh	1/25
Generic optimisation of small water reticulation networks using *Wadessy* – A A Ilemobade and D Stephenson	4/2
Implementing preferential procurement policies in the public sector in South Africa – R B Watermeyer	3/11
Improvement of aggregate interlock equation for new mechanistic concrete pavement design method – A C Brink, E Horak and A T Visser	2/2
Potential application of end-use demand modelling in South Africa – J E van Zyl, J Haarhoff and M L Husselmann	2/9
The achievement of uniformity of straining during concrete cube testing in South Africa – I Luker	1/2
The effect of fly ash properties on concrete strength – E P Kearsley and P J Wainwright	1/19
The impact of location choice factors on retail suburbanisation based on a stated preference model developed for Cape Town – N J W van Zyl	1/9
The seismic cone test – G Heymann	2/26
Wave revetments for inland lakes – C F Watermeyer	4/10
