# INDEX TO CIVIL ENGINEERING 2007

## AWARDS AND COMPETITIONS
also see SAICE AWARDS

- Call for nominations: Geotechnical Division Awards 2007  
  4/18
- CSIR architectural engineering expert wins prestigious J D Roberts Award  
  10/56
- Enter the SAICE Photographic Competition  
  7/57
- Gautrain wins international award  
  4/33
- NSTF Awards 2007  
  10/52
- Our very first PICA Award!  
  11/66
- Prestigious award made to former South African Rand Water  
  6/58
- SAICE Awards evening  
  6/48
- SAICE Photographic Competition Final reminder  
  11/72
- Sigma Coatings wins best medium business 2006  
  1/21
- South Africans excel in prestigious concrete course  
  4/33
- Strong contenders for Fulton Awards 2007  
  4/32
- Top 500: African achieves top ranking in the South African engineering sector  
  1/20
- Water Engineering Division Competition winners  
  6/49
- World record-breakers among 2007 Fulton Award winners  
  7/3

## BLACK ECONOMIC EMPOWERMENT
also see COMMUNITY-BASED PROJECTS

- A successful BEE strategy  
  8/45
- A winning formula  
  8/44
- An alternative approach to implementing the BEE codes of good practice  
  7/38

## BOOK REVIEW/BOOKSHELF

*Enviropaedia* launched  
1/21

*Numbers & Needs in Local Government* launched  
11/69

The life and work of Charles Michell  
9/56

## BUSINESS COMMUNICATION

Brush up on your e-mail etiquette for better results  
1/13

## COMPANY PROFILE

KV3 engineers celebrates 30 years of growth  
10/39

Ninham Shand 75  
6/7

## COMMUNITY-BASED PROJECTS
also see URBAN AND RURAL ENGINEERING

- A project in the community, by the community  
  11/28
- A winning formula  
  8/44
- Bringing communities together  
  11/26
- Community participation key to the success of ARRUP  
  2/38
- Innovative new precast concrete toilet wins Community-based Award  
  2/36
- More than just safe sanitation  
  11/33
- Traffic training facility for junior learners  
  11/35

**CONSTRUCTION ENGINEERING**

- Challenging bridge repairs earn a commendation                      | 2/10                  |
- Concrete face construction at Berg River Dam                        | 7/6                   |
- Durban Harbour Tunnel a worthy winner                               | 11/2                  |
- Formidable design and construction challenges posed by Clifton project | 2/16                  |
- Gautrain update: A visual journey                                   | 5/3                   |
- Getting it smooth                                                    | 2/34                  |
- Hillcrest Boulevard set to lure shoppers                             | 7/20                  |
- Innovative solutions to construction challenges during interchange upgrade | 2/30                  |
- Looking after the interests of the quarrying industry               | 7/17                  |
- Massive concrete requirements of new Med harbour                     | 7/12                  |
- New Kaaimans Pass half viaduct nearing completion                    | 8/22                  |
- Successful precast concrete solution                               | 2/32                  |
- Technical Excellence Category winner a world-class project           | 2/6                   |
- The colours of steel construction                                   | 10/47                 |
- Tilt-up beams for New Orlando Stadium                               | 7/23                  |
- Toyota plant’s vehicle capacity doubled                             | 2/28                  |
- Turning challenges into opportunities for innovation                | 7/15                  |
- Versnelling op konstruksie- of bouprojekte: ‘n Paar basiese riglyne om dispute te voorkom | 7/34                  |
- Water provision in rural KwaZulu-Natal                             | 7/9                   |
- Welcome to the least-known subject in civil engineering             | 7/24                  |
- World record-breakers among 2007 Fulton Award winners               | 7/3                   |

**COVER STORIES/ON THE COVER**

- Expansion plans of local boat-builder lauded                        | 1/23                  |
- Franki on track at Gautrain                                         | 8/20                  |
- Gautrain update: A visual journey                                   | 5/3                   |
- New National Library building nearing completion                     | 9/47                  |
- Plane sailing for Franki at O R Tambo 20                             | 4/20                  |
- Selecting interventions to study and implement the Western Cape Reconciliation Strategy | 6/16                  |
- SGE partners with Chinese group                                     | 3/39                  |
- Technical Excellence Category winner a world-class project           | 2/6                   |
- TOSAS: The leading South African roads ‘binder’                     | 10/34                 |
- Turning challenges into opportunities for innovation                | 7/15                  |

**EASTERN CAPE**

- Construction of Bozwana village footbridge                         | 10/32                 |
- Upgrades in Eastern Cape under way                                  | 10/33                 |

**EDUCATION, TRAINING AND THE YOUTH**

- Be anything you want to be!                                         | 7/43                  |
- Bringing engineering alive                                         | 10/55                 |
- Budding young engineers                                             | 8/48                  |
- Creating enthusiasm for civil engineering                           | 7/43                  |
- ExCEED: A model for instructional design                            | 6/59                  |
- New GMBa move to secure funds for training                          | 3/42                  |
- The ExCEEd Teaching Model                                           | 7/58                  |
- Vuk’uphile learnership project                                      | 3/38                  |
ENVIRONMENTAL ENGINEERING

Adept at solving environmental nightmares 8/3
Cathodic protection of a historical rail bridge 2/26
Chute lining makes for improved refuse handling 8/8
Contribution to sustainable development showcased 8/39
CSIR investigates use of natural fibre composites in construction 8/44
Dealing with complexity in the environmental review process 8/14
Don't bin it, bank it! 8/42
Environmental information for decision-making 8/12
First bio-engineering workshop on turf reinforcement mats held at Dinokeng 10/44
Fish climbing the ladders back to survival 8/16
Grassfence keeps the soil in place at Simbithi 9/54
Greenfield challenges 10/21
Landfill rehabilitation costs for the City of Cape Town 10/28
Liner design on to an existing wastefill area 10/9
Mondi effluent treatment plant a massive project 2/12
Multifaceted mine closure and rehabilitation at Rietspruit Mine 2/14
New fines residue deposit facility for Venetia Mine 8/11
New master plans and management information systems for water and sewer infrastructure in the Western Cape 8/30
Ninth Capsa conference to focus on technology, health, safety and the environment 8/47
Old sand quarry makes way for golf estate 8/6
Public urged to choose energy-efficient bulbs 8/48
Rehabilitation of the environment under way at Kingswood 8/26
River bank protected 8/19
Shaping a better world with an integrated local environmental focus 8/39
Sustainable energy body welcomes solar hot water initiatives 4/33
The construction environment: When grey is green 8/42
Water resources and climate change 6/34

ENERGYS

ENERGYS: Making a difference 7/39

SAICE 2007 essay topics for professional registration
SAICE Awards evening
SAICE Journal receives international accreditation
SAICE Photo competition – final reminder
Technical guideline published
The ExCEEd Teaching Model
The SAICE Infrastructure Report Card for South Africa, 2006
Three score years for Dawie!
Water Engineering Division Competition winners
World Council of Civil Engineers at Vic Falls
World deep diving record set by South African

SAICE AWARDS 2006

TECHNICAL EXCELLENCE CATEGORY
Cathodic protection of a historical rail bridge
Challenging bridge repairs earn a commendation
Formidable design and construction challenges posed by Clifton project
Getting it smooth
Innovative cost-saving solution at Vaalkop
Innovative solutions to construction challenges during interchange upgrade
Marquard reservoir designed with unique capability of extension
Mondi effluent treatment plant a massive project
Multifaceted mine closure and rehabilitation at RietSpruit Mine
Successful precast concrete solution
Technical Excellence Category winner a world-class project
Toyota plant’s vehicle capacity doubled
Unconventional layout for key interchange

COMMUNITY-BASED CATEGORY
Community participation key to the success of ARRUP
Innovative new precast concrete toilet wins Community-based Award
Valuable lessons learnt from Modimola project
Water supply projects changing the face of rural KwaZulu-Natal

INTERNATIONAL CATEGORY
Malawi project characterised by ingenuity and innovation

SAICE AWARDS 2007

TECHNICAL EXCELLENCE CATEGORY
Africa’s first landfill gas clean development mechanism project earns commendation
Bridge reinstated to its former glory
Durban Harbour Tunnel a worthy winner
Innovative structural steel tied arch footbridge
Muden community access route restored
Pinnacle Point Beach and Golf Resort
Umhlanga stormwater outfall pier

COMMUNITY-BASED PROJECTS
A project in the community, by the community
Bringing communities together
More than just safe sanitation
Traffic training facility for junior learners
Tsitsa River Bridge now serving the Laleni community

INTERNATIONAL
Maguga hydropower project

SMART AWARDS
Winners of the SMART Awards for 2007

OTHER INDUSTRY AWARDS
Infraset scores double honours
Jeffares & Green wins two Fulton Awards

SOUTHERN CAPE

New Kaaimans Pass half viaduct nearing completion
Rehabilitation of the environment under way at Kingswood

STRUCTURAL ENGINEERING
A dream come true
A magic cube
A quarter-century of celebrating structural steelwork excellence
Athens’ Olympic marvel a tribute to engineering ingenuity
Cape Town to host SEMC 2007
Cathodic protection of a historical rail bridge
Challenging bridge repairs earn a commendation
Conceptual design of structures for seismic loads
Cultivating a marketing mindset
Focus on Joint Structural Division: Chartered membership – an international passport for structural engineering
Focus on Joint Structural Division: Full membership of the Joint Structural Division
Focus on Joint Structural Division: JSD list of peer-reviewed competent structural engineers
Innovative cost-saving solution at Vaalkop
Marquard reservoir designed with unique capability of extension
Ninham Shand 75
Revisions to SANS 10100-1:2000 The structural use of concrete Part 1: Design
Technical Excellence Category winner a world-class project

TRANSPORTATION
